PROFESSIONAL SUMMARY

B.Tech Computer Science student with experience in web development, database design, and AI-accelerated workflows. Skilled in Python, C, and SQL, with foundational knowledge in object-oriented programming and data structures. Demonstrated ability to lead technical projects and build user-centric web platforms capable of handling large-scale registrations. Eager to leverage software development and analytical skills in a collaborative engineering environment.

PROJECTS

Club Management & Registration Platform | TanStack Start, TypeScript, Supabase (PostgreSQL), Tailwind CSS, Razorpay ([Pitchers Github](#))

- Built and deployed a full-stack event registration and ticketing platform on a custom domain, used for club events with 1000+ registrations.
- Designed the PostgreSQL schema on Supabase and built a custom admin panel for managing events and attendees.
- Integrated Razorpay for online payments.

Invoice Analyzer | Python, OpenCV, Tesseract OCR, Regex, Streamlit ([Invoice Analyzer Github](#))

- Built an OCR pipeline that preprocesses invoice images with OpenCV and extracts text using Tesseract.
- Parsed merchant, date, total, and line items with regex-based rules, tested across multiple invoice layouts.
- Currently adding bulk upload, a human-review step, and CSV export.

Python Projects | Python, Tkinter, Pandas ([Python Github](#))

- Built Tkinter GUI apps (password manager, flash cards, timer) and Pandas/CSV data tools as part of the 100 Days of Code bootcamp.

EXPERIENCE

Web Development Intern | SR INDIA

June 2026 - July 2026

- Web Development Intern | SR INDIA (Online) June 2026 – July 2026
- Completed an online web development internship, building projects using HTML, CSS, and Bootstrap.
- Built responsive web pages
- Used Git and GitHub to manage and submit project work.

President | Pitchers Craft – Manipal University Entrepreneurial Society

May 2025 – June 2026

- Led and managed a cross-functional team of 50+ students across marketing, design, social media, and operations
- Successfully organized and executed 3 large-scale events with 100+ attendees each
- Coordinated with multiple external agencies to deliver high-impact campaigns and events
- Implemented AI tools, Excel, and industry software to streamline team workflows and improve efficiency
- Developed and executed social media strategies to grow the society's online presence

EDUCATION

Manipal University Jaipur: Bachelor of Technology – Computer Science & Engineering

2024 – 2028

- Relevant Coursework:** Data Structures and Algorithms, Operating Systems, Design and Analysis of Algorithms, Object-Oriented Programming (Python), Database Management.

St. Anselm's Pink City, Jaipur : 10th Standard: 92%

2011 – 2024

12th Standard (Physics, Chemistry, Mathematics): 85%

SKILLS

Technical Skills: Python, SQL, JavaScript, TypeScript, HTML, CSS, C, Kotlin

Frameworks & Tools: React, Tailwind CSS, Bootstrap, Streamlit, OpenCV, Pandas, Supabase, Git, GitHub, OCR, Android Studio, Star UML

Soft Skills: Team Leadership, Project Coordination, Social Media Marketing, Communication, Sales, AI Assisted Development

CERTIFICATIONS

100 Days of Code: The Complete Python Pro Bootcamp – Udemy

2026

Database Design and Programming with SQL – Oracle Academy

2025

Search Engine Optimization (SEO) – Udemy

2024

Full Stack Web Development – Udemy

2023
